
Subject: Human Health Criteria Technical Workgroup Meeting #5
Location: Conf-JNU Main (DEC) (DEC sponsored)

Start: Tue 1/26/2016 10:00 AM
End: Tue 1/26/2016 12:00 PM

Recurrence: (none)

Meeting Status: Accepted

Organizer: Tabor, Brock N (DEC)
Resources: Conf-JNU Main (DEC) (DEC sponsored)

01-25-16 UPDATE: Enclosed is a copy of tomorrow's PPT presentation in case we have issues with the GOTOMEETING connection.

01-19-16 UPDATE: Enclosed is the logistical information for our meeting on 1/26. Please let me know if you have any questions or concerns.

Hello HHC Technical Workgroup Members,

Based on your responses to the Doodle poll, our next meeting will take place on Tuesday January 26th from 9-11 am.

The topic for discussion will be **Relative Source Contribution (RSC)**. I have identified three background documents that discuss the history, role, and potential approaches to applying RSC in the HHC formula.

1. RSC Module: This is a presentation developed by EPA in 2015. It contains 25 slides and text. This document provides a great deal of information based on the 2000 methodology. Very technical in nature.
2. Washington White Paper: Short summary of the role of RSC and how other states have applied RSC in their criteria development efforts.
3. Idaho White Paper: Follows the tone of the other papers in being less technical but still addressing key concerns and issues. Also addresses some of the decisions that Idaho has made to date in their criteria adoption efforts and how RSC may affect other aspects of the HHC equation.

If you have any specific comments about the *draft* Workgroup Report, please feel free to send them along and I will compile and share them with the Workgroup at our meeting.

Thanks and have a safe New Year's Eve.

Brock Tabor
